

CFA Resolution in Support of Contract Bargaining

Adopted by the CFA Assembly April 23, 2006

Assuming the faculty contract is not settled this spring, the Assembly recommends that local chapter and statewide governance plan and implement escalating activities that will pressure the CSU and its bargaining team to agree to a fair contract. These activities should include:

- Actions in May and throughout the summer that will pressure targeted CSU Trustees and the Chancellor
- Escalating actions during the opening weeks of the fall term that will galvanize the campuses and encourage even broader participation among the faculty, students, and staff
- If there is still no settlement by October 2006, the bargaining team will ask the Fall Assembly to consider stronger steps to resolve the dispute, including a work stoppage
