CFA Filed Unfair Labor Practices

Upon reaching a tentative agreement over salary, CFA will withdraw with prejudice PERB cases SA-CE-375-8 (Systemwide) and SA-CE-379-H (CSU Humboldt).

Lecturer Range Elevation

The parties recognize that the current language in Article 12.17 has the *de facto* effect of excluding a large population of lecturers from applying for range elevation. This provision limits the ability of lecturers to move between ranges, even when they would otherwise meet campus range elevation criteria. The parties agree to form a Working Group to study the problem and develop a resolution. If the working group is unable to find a solution by March 1, 2017, the parties agree to submit the issue(s) to binding interest arbitration for contractual changes to be implemented in the 2017-2018 Academic Year.

Each party shall submit to a panel of three arbitrators selected by the parties, and exchange with each other, their proposal for addressing the issue in interest arbitration. The Panel shall be limited to awarding only one or other of the two proposals submitted.

Intent for Implementation

This working group shall not be charged with modifying Range Elevation Evaluation policies, as those policies are developed at the campus level. The group shall commence work thirty (30) days after ratification.

Side Letter on Future Cooperation

The parties agree to draft a side letter expressing their commitment to work cooperatively to protect the quality of public higher education in the CSU. For example,

- The parties may agree to jointly seek from the legislature the appropriate level of funding necessary to meet the mission of the CSU.
- The parties may agree, in the event of an unexpected fiscal crisis, to work cooperatively to address the impacts of any such crisis on student instruction, the campus community, and the CSU's mission.
