

## **PSC Solidarity with the California Faculty Association**

On behalf of the Professional Staff Congress of CUNY, I want to convey the PSC's support for the California Faculty Association's (CFA) one-day strike at the two California State University (CSU) campuses, East Bay and Dominguez Hills. In a time when massive tax cuts benefit the wealthiest Americans, public education bears the cost of those tax cuts in high tuition, neglected infrastructure, minimal resources and an overtaxed faculty and staff. In demanding a fair contract, the CFA is standing up for the university system's historic mission of providing the best possible college education for a working-class student population. CSU has a tradition of educating one of the most diverse student populations in the country. The faculty who serve these students must have working conditions that allow them to provide the highest quality education.

The PSC stands in solidarity with our colleagues at the California Faculty Association at the California State University system. The PSC has a long-standing tradition of support for public investment in quality college education and we support the CFA as you demand the resources you need to offer a college education worthy of the thousands of students you serve.
