

California Faculty Association Resolution in Support of Student Climate Action

WHEREAS, the California Faculty Association is dedicated to the common good to preserve the wellbeing and safety of every member of our community over the long term; and

WHEREAS, we have relentlessly promoted the development of high quality education and wisely foregrounded social and racial justice as the centerpiece of this undertaking; and

WHEREAS, we are committed to supporting our students' efforts to learn and promote these same values and create an equitable and resilient future; therefore be it

RESOLVED, that the California Faculty Association applauds the efforts of our students and our future students who are committed to mitigating the impacts of climate change with all haste and in many creative ways partnering with the Sunshine movement and through other collective action; be it also

RESOLVED, that the California Faculty Association supports their desire to serve their communities with integrity, conviction and work to secure clean air and water, climate and community resilience, healthy food, access to nature and a sustainable environment for all.

Adopted by the CFA Assembly
