The bill would require the stakeholder workgroup to submit a report to the Legislature on or before October 1, 2023, that includes recommendations to alleviate concerns of current emergency response programs on the campuses of the California State University. - **Teacher Credentialing Task Force/Elimination of TPAs: Assembly Bill 2047 (C. Garcia)** would require the Commission on Teacher Credentialing to convene a Teacher Credentialing Task Force by March 2023 comprised of teacher educators from each segment of the higher education system, students in teacher credentialing programs, organizations representing university faculty, teachers, and administrators to examine the current teacher credentialing process and the impact that high-stakes teacher credentialing assessments, including the California Subject Examination for Teachers (CSET), California Basic Educational Skills Test (CBEST), Reading Instruction Competence Assessment (RICA) and Teacher Performance Assessments (TPAs), and their associated costs have on the current teacher shortage and the lack of diversity in the teaching workforce.

The bill would also require the Commission to provide a report on the findings and recommendations from this Task Force to the Legislature by December 2023 that outlines the barriers these assessments present, and policy recommendations based on those findings, for increasing the number and diversity of qualified educators in California.

Finally, AB 2047 would also end the use of Teacher Performance Assessments in California's teacher-education programs. This includes removing TPAs from all high-stakes decisions. This bill would protect prospective teachers from the expenses related to TPAs and prevent additional financial and emotional burdens on our prospective teachers.
