California Land Acknowledgement

We want to recognize the land as an expression of gratitude and appreciation to those whose territory we reside on, and a way of honoring the Indigenous people who have been living and working on the land from time immemorial. It is important to understand the long history that has brought us to reside on the land, and to seek to understand our place within that history. Land acknowledgements do not exist in a past tense, or historical context: colonialism is a current ongoing process, and we need to build our mindfulness of our present participation. Acknowledging the land is an important Indigenous protocol that we are honoring here today.

CFA Interruption Practice Statement

As part of our continuing commitment to Racial Justice Work, when we experience examples of racial narratives, racism, or whiteness in our meetings, or as we conduct our business, we will speak up. This means we can interrupt the meeting and draw the issue to one another's attention. We will do this kindly, with care and in good faith. Further, as we engage interruptions we will take an intersectional approach, reflecting the fact that white supremacy and racism operate in tandem with interlocking systems of oppression of colonialism, class, cisheteropatriarchy, and ableism. This statement is a reminder that we commit to do this in the service of ending the system of racial oppression.
